

KANSAS FIRE SAFETY

WHAT YOU SHOULD KNOW TO PROTECT YOUR HOME

In 2013 there were **1944** residential fires in Kansas.

Residential Fires Breakdown

Most Common Areas of Fire Origin

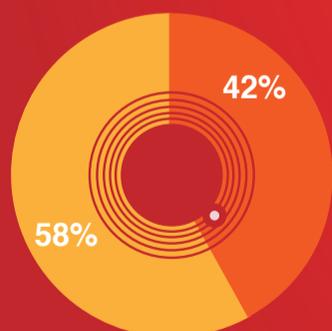

- P**ull the pin on the fire extinguisher
- A**im at the base of the fire
- S**queeze the handle
- S**weep from side to side until the fire appears to be extinguished

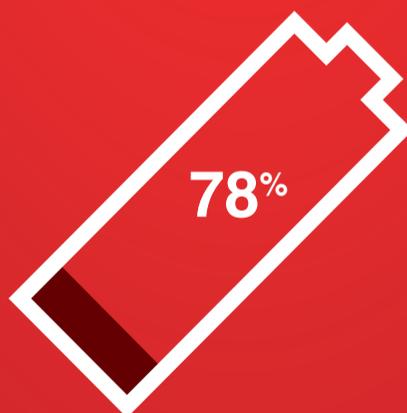

Smoke Detector Effectiveness

1 or 2 Family Dwellings

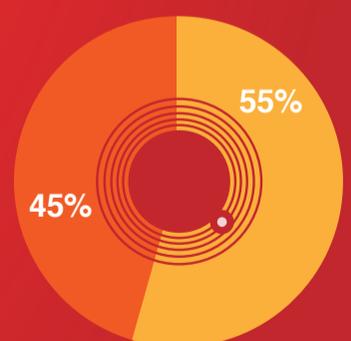

- Detector Didn't Alert Occupants
- Detector Alerted Occupants

78% of determined causes for detector failure was due to missing or discharged batteries. Protect your home by replacing batteries and testing fire detectors regularly.

Multifamily Dwellings

- Detector Didn't Alert Occupants
- Detector Alerted Occupants
